

BOROONDARA NETBALL ASSOCIATION

COVID VACCINATION REQUIREMENTS 2022

Please note: this document will be reviewed in 3 months in the event of changed health guidelines

The following guidelines have been collated from:

- 1) Victorian Government directives
- 2) Local Council guidelines, City of Boroondara
- 3) Netball Victoria guidelines
- 4) Individual venue conditions of entry ie) gym, pool, stadiums, playing / training venues

Vaccination is a personal choice

Relevant facts:

- Infection rates in vaccinated participants are ¼ those of unvaccinated. They are also less likely to transmit infection and are infectious for a shorter period of time than unvaccinated.
- Vaccinated participants may still carry and transmit infection but have 90% protection against the need for hospitalisation from Covid infection.
- Participants testing positive for Covid must quarantine at home for 7 DAYS & notify close contacts. Re-testing for clearance is not required
- Household contacts should also quarantine for 7 days if vaccinated / 14 days if unvaccinated . They should test on Day 2 and Day 6 (Day 13 unvaccinated) before being cleared to leave isolation
- Participants who are social contacts of a positive case should monitor for symptoms.
- There are a number of different vaccines, each with specific risks and contraindications. The only absolute medical exemption for vaccination is anaphylaxis to one of the products in the vaccine.

The Boroondara Netball Association believe that we have a Duty of Care to our players, coaches, umpires, team personnel, administrators, as well as to our local community. Individuals must make their own informed decisions regarding vaccination based on self-interests and consideration of others.

The Boroondara Netball Association encourages all participants to follow medical advice & seek vaccination:

- 1) for your own preventative health
- 2) for the health & wellbeing of other participants (team-mates, opponents, team personnel & officials)
- 3) for the health & wellbeing of other participant's family members, colleagues, friends who may be particularly vulnerable for other medical reasons.

There are options for individuals to play netball under the Government "community sport" guidelines where there are no requirements for vaccination to train & play, provided the space is used only for community sport. Currently this excludes various facilities often required for participants to contribute to their club as a whole member ie) not just training and playing. These include:

- Gyms & pools
- Indoor spaces not used for community sport ie) club rooms, social venues, kiosk / canteens
- Individual venues / competitions which have set their own conditions of entry
- Some schools ie) school clinics, home game venues

Unvaccinated participants will need to **choose** the netball programs they are eligible for, based on the relevant restrictions and requirements for vaccination as outlined in the following table.

BNA Friday / Saturday Competition & JuniorNet Program

Boroondara Netball Centre:

- No restrictions to play & train outdoors (community sport)
- Unvaccinated may use the toilets but may not enter the pavilion
- Paid workers must be vaccinated

Umpire & Coach Development programs

As venues used to host these programs are not classified as spaces used only for “community sport”, all participants aged 12+ 2 mths and over are required to be fully vaccinated.

Boroondara POWER Representative teams: 11U, 13U, 15U, 17U

MATCHES: Waverley Netball Centre

- No restrictions indoor or outdoor
